RAJESH K

FULL-STACK DEVELOPER

RESUME SUMMARY

A highly motivated Computer Science graduate with a strong foundation in coding, system design, and web development. Proficient in HTML, CSS, JavaScript, React, Node.js, Laravel, PHP, and MongoDB. Adept at problem-solving and delivering efficient, scalable solutions. Committed to collaborating with cross-functional teams to drive innovation and implement tailored strategies that meet organizational goals.

PROJECTS

PHP, Laravel, MySQL, Bootstrap, JavaScript

Overview

Developed three e-commerce platforms and a comprehensive HRMS application with admin panel functionality, focused on scalability, user experience, and streamlined operations.

HRMS Application

Worked on attendance management features, user management, detailed reporting tools, and trainer addition modules. Designed to enhance functionality, improve user experience, and streamline administrative processes.

E-commerce Platforms

Contributed to product management, Wishlist management, Contact Us functionality, and frontend design. Ensured a seamless user experience with responsive layouts and efficient functionality.

Admin Panel Features

Designed user-friendly and responsive interfaces using Bootstrap, implemented a modular backend structure with Laravel MVC

React, Node.js, MongoDB, Express.js

Overview

Developed a secure and scalable full-stack admin panel for product and sales management, utilizing the MERN stack.

Front end

Developed a clean and responsive user interface using React and Bootstrap. Integrated React Router DOM for seamless navigation and utilized Redux for efficient state management and improved application performance.

Back end

Built the backend using Node.js and Express.js with MongoDB for efficient data processing and storage. Implemented JWT for secure user authentication and leveraged Bcrypt to ensure robust password encryption.

EXPERIENCE

Junior Web Developer Intern

Nanlogical 05/2024

Internship Experience

Assisted in developing and maintaining web applications using HTML, CSS, JavaScript, and Laravel.

Collaborated with the team to design responsive and user-friendly front-end interfaces using Bootstrap.

Worked on database management using MySQL and MongoDB for efficient data storage and retrieval.

Software Engineer Intern

Tecla Media 10/2024

Internship Experience

Developed and maintained dynamic web applications using Laravel, ensuring robust back-end functionality.

Designed and implemented database schemas, optimized queries, and maintained data integrity using MySQL.

Built user-friendly interfaces by integrating Blade templates with responsive design principles. Collaborated with team members to integrate APIs for enhanced application features
